

Ducklings Pre-school information

Ducklings preschool has been operating since 2000. Our first site is still open at Westcroft and we have additional sites at Emerson Valley, Tattenhoe and now Monkston Park. Over this time we have provided pre-school education to over 3000 children and employed in excess of 45 highly qualified team members, as well as working with other agencies such as speech therapists, early years consultants, health visitors and other professionals within Early Years.

About Ducklings Pre-school

We take great pride in the maturity and quality of our practitioners and the Management team and our excellent relationships with local Schools and Service Providers. Our team has gone from strength to strength with the majority of our management team having been with us for 5 or more years.

We provide a platform for learning that is based on the Early Years Foundation Stage. Our most recent Ofsted reviews have confirmed the quality learning environment in our settings which have all been rated "good". We offer both part and full time places, and are registered to accept Government funding for all children aged 3 and 4 years.

Our new site at Monkston Park is held in the spacious Monkston Park community centre which offers excellent facilities including safe, enclosed garden and child sized toilet facilities. Visits are always welcome at all of our sites.

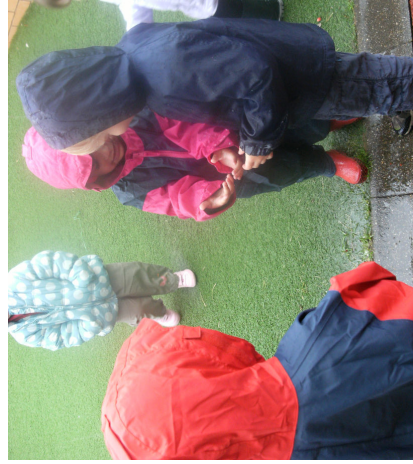

The benefits of attending pre-school

Children learn many new skills through attending pre-school, independence, social skills, developing communication and language skills, problem solving and many more. Most of all children develop and learn while having fun with other children!

Creative, Fun Environment: Making learning fun is recognised as a key enabler at our settings. Our children will have access to materials and trained staff enabling them to explore and discover in a creative way.

Individuality is our key: We intentionally guide and extend your child's play to ensure key developmental milestones are achieved.

Developmental Guidelines: To set the stage for individual achievement. Highly qualified practitioners continuously observe and assess your child's developmental achievements.

All our settings use both the indoor and outdoor environment to stimulate learning, whatever the weather!

There will be lots to keep your child busy and engaged during a pre-school session.
