

DUCKLINGS PRESCHOOL

Ducklings Preschool has been operating since 2000. Our first site is still open at Westcroft and we now have additional sites at Emerson Valley, Medbourne Pavillion and Tattenhoe Pavillion. Over this time we have provided Preschool education to over 3000 children and employed in excess of 45 highly qualified team members as well as working with service providers such as Speech Therapists, Early Years Consultants, Health Visitors and other professionals within the Early Years structure.

Who we are

Ducklings Preschool has been operating since 2000. Our first site is still open at Westcroft and we now have additional sites at Emerson Valley, Medbourne Pavillion and Tattenhoe Pavillion.

We take great pride in the maturity and quality of our Teachers and the Management team and our excellent relationships with local Schools and Service Providers. Our team has gone from strength to strength with the majority of our management team and lead teachers having been with us for 5 or more years.

We provide a platform for learning that is based on the Early Years Foundation Stage. Our most recent Ofsted reviews have confirmed the maturity and professionalism with which we perform our services, we scored high ratings across the board. We offer both part and full time placements, and are registered to accept Government funding for all children aged 3 and 4 years.

Benefits of attending

Ducklings Preschool

Focused Lesson Plans: Our staff use their vast experience to plan daily learning activities that build upon what your child can do, use fun activities along the way.

Creative, Fun Environment: Making learning fun is recognised as a key enabler at our settings. Our children will have access to materials and trained staff enabling them to explore and discover in a creative way.

Individuality is our key: We intentionally guide and extend your child's play to ensure key developmental milestones are achieved.

Developmental Guidelines: To set the stage for individual achievement. Highly qualified staff observe and assess your child's developmental achievements.
